## TECHNICAL REQUIREMENTS

### CLIENT AGENT (CLOUD-BASED & ON-PREMISES)

List of OS supported versions:

- Windows Vista, 7,8,10,11, Server 2012,2016,2019,2022 - both 32bit and 64bit editions
- macOS 10.14 (Mojave), 10.15 (Catalina), 11 (Big Sur), 12 (Monterey), 13 (Ventura), 14 (Sonoma), 15 (Sequoia)

Hardware requirements:

- 1Ghz CPU
- 2Gb RAM
- 1Gb free drive space
- 0.2 Mbit Network speed

### SERVER (ON-PREMISES)

Controlio On-Premises server app is shipped as [Docker Desktop](#) container - multi-platform virtual machine supported by Windows OS and Linux OS. Technical requirements for the on-premises server for 50 users:

- 1Ghz CPU
- 2Gb RAM
- 3Gb/month per user disk space (if screen recordings is ON), 20Mb/month per user (if screen recordings and email recording is OFF). Email traffic volume depends on your company (attachments may be saved for MS Outlook).

## TECHNICAL SUPPORT AND LICENSE TERMS

- Licensed by concurrent user sessions
- No license/limits for Dashboard users (admins, managers)
- 6 months data retention period by default (for the Cloud version only. 12+ months plans are available)
- 1 business day support via email
- Live chat support on the website
- Remote assistance tools

## COMPANY

ELab LLC (Dubai, UAE) is an independent software vendor providing high-quality and robust employee monitoring technologies. The first product, Work Examiner, was released in 2005.

Controlio (released in 2017) is a web-based cloud system for employee surveillance on their work computers that run Windows and macOS. You can easily monitor web and application usage and watch what's happening on your staff screens live or on-demand. Productivity optimization is one of the reasons why you need a surveillance system. With Controlio, you can see productivity issues and organizational bottlenecks at their early stages and take care of them before they become big.
